## EXPERIENCE

**07/2022 – PRESENT**

**SENIOR DEVOPS ANALYST**, APS BANK PLC

- Develop and maintain automated testing suites for online banking and other systems to ensure high-quality delivery.
- Design and implement CI/CD pipelines to streamline the deployment process and improve software delivery efficiency.
- Identify and troubleshoot technical issues across various systems, providing timely resolution and implementing preventive measures to ensure smooth operation.

**03/2019 – 07/2022**

**DEVOPS ANALYST**, APS BANK PLC

- Served as the primary point of contact for the internet banking system, providing support, documentation, and deployment of enhancements.
- Documented and supported all systems and processes, enabling efficient resolution of any issues.
- Diagnosed technical issues in networks and systems, delivering effective solutions and preventive measures for optimal performance.

**06/2018 – 09/2018**

**JUNIOR SOFTWARE DEVELOPER**, DEPARTMENT OF CUSTOMS

- Developed an internal staff training database utilizing Access/VBA to optimize the onboarding procedures.
- Ensured government systems remained secure and up to date with security patches.
- Supported the team in streamlining their workflow processes to improve operational efficiency.
